ROSSER & MCCARTHY,
Proprietors.

THURSDAY EVENING JULY 29, 1886.

The Democrat who remains away from the polls next Monday may have cause to regret it.

There is nothing to be lost by turning out next Monday and voting. Democrats, we ask you to do it.

Some of the Republican nominees started out on a "still hunt," but the Democrats are on to their game.

Congress has passed a bill pensioning the widow of General Durbin Ward at the rate of \$100 per month.

CHARLES JACOB, the belligerent Minister to Colombia, has tendered his resignation to the State Department.

The business men of Louisville have raised \$625,000 for the Louisville Southern Railroad. It is thought work will commence in the next sixty days.

A REPORT from Woodford County says the Versailles and Midway Railroad will handle 400,000 bushels of grain this season, saving the farmers \$20,000 in transportation over the old way of hauling by wagons.

ONE of the Republican candidates made the brag recently that he had the "boodle," and would use it next Monday. It behooves the Democrats to be on their guard. Let every member of the party vote.

Governor KNOTT has commuted the sentence of John Williams, colored, who was to be executed soon at Paris, to imprisonment for life. Williams murdered Harry Skillman, an old negro, in October 1884, at North Middletown.

It begins to look like the land sharks will have to give up. The Land Forfeiture bill now pending in Congress will probably be passed, and in that event \$80,000,000 acres of arable land, valued at \$100,000,000, will be restored to the public domain.

OUT of 2,763 postmasters in Ohio, there were 1,456 appointed during the fiscal year ending June 30, 1886. That was "turning the rascals out" pretty fast, it seems to us. In Indiana, about half the "rascals" were turned out of the post-offices during the same year, too.

The railroads entering Chicago have rewarded the police of Lake and Hyde Park by presenting each with a check for \$1,000, for their efforts to preserve order during the recent strikes. This was unexpected and will have a tendency to make the police more determined hereafter.

A JOINT resolution has been reported favorably in Congress proposing an amendment to the constitution, providing that from and after the year 1900 the manufacture, sale and importation of distilled alcoholic, intoxicating liquors, except for medicinal, chemical and scientific purposes, shall cease.

BEN D. FAIRY is the Democratic nominee for Circuit Clerk. He is serving his first term in the office and has made an official of which any party might feel proud. His record speaks for itself. The people of the county, and especially the members of his party, know that he deserves a handsome endorsement at the polls next Monday. Let every Democrat do his duty and vote. There are excellent reasons for putting the full party vote, and let it be polled for every nominee.

COMMUNICATED.

WILLIAM MCCLANAHAN.

Editor Bulletin: I thought I would pen a few lines for your paper stating some facts connected with the life of Mr. William McClanahan, thinking it would interest his many friends. He was born near the Lower Blue Lick Springs in the year 1810. His father was Francis McClanahan, and his mother was Wm. McClanahan who represented this district several terms in the Kentucky Legislature, and his mother's maiden name was Elizabeth Porter. It was during his youth that the Mayville and Lexington turnpike was built, he being one of the surveying corps for same.

He came to Mayville in early manhood and engaged in the manufacture of plows in which business he continued, with little interruption, until the civil war. He was modest and somewhat retiring in his manner, yet always had a welcome for his friends, who found him to be a man of superior intellect.

He was married in the year 1841, to Miss Eliza A. Williams, daughter of Dr. Thomas O. Williams, and granddaughter of Dr. William McCauley, of Va. A more affectionate husband, a kinder-hearted man, and one more willing to do an act of charity we never knew.

He passed peacefully away on the morning of July 10th 1886, surrounded by his many loving friends. He was an exemplary christian, dying triumphant in the faith of his Savior.

ONE WHO KNEW HIM.

Another old Cincinnati firm has failed in Chicago, the Charles W. Allen company, tobacco manufacturers; liabilities \$175,000; assets, nominal, \$200,000.

O. E. Sanderson, receiver of the Indiana, Michigan & Western Railroad company, has filed a report in the Federal court at Indianapolis, asking authority to surrender the Cincinnati, Sandusky & Cleveland railroad as very unprofitably leased property.

Mr. John Prill, of Pittsburg, frightened by a thunder storm, ran for a vessel of holy water with which he sprinkled himself, and by mistake took a bottle of sulphuric acid. She was horribly burned, will be disfigured for life and will probably lose her sight.

At New Albany, Ind., Professor Ira G. Strunk assaulted Charles V. Hoover in the street with a revolver. The first shot missed the aim and struck Hoover's father, Dr. Charles L. Hoover, inflicting a fatal wound. The younger Hoover was then shot to death, and his head beaten and mangled with the empty revolver. Instability between Charles V. Hoover and Strunk's wife caused the trouble.

The Biggest Blaze in America.

Professor Baudin-Lemalle holds that the greatest firework ever witnessed on this planet must have blazed aloft on the Pacific slope of our United States. The most active volcanoes of the present age, Mount Etna and Mount Vesuvius, have surrounded themselves with lava-falls varying from ten to fifty feet in thickness and extending over an area of half a hundred square miles. But the prehistoric volcano that seems to have had its crater somewhere on the western slope of the Cascade range, Oregon, has covered a district of 30,000 square miles with a continuous bed of lava of average thickness of 1,500 feet. All the vast tablelands from the valley and the Klamath river in northern California to the Okanagan range in British Columbia must have been deluged by a fire-stream equal in volume to the contents of the five great Canadian lakes and the river system of the Mississippi combined. Niagara falls, pouring down moles and night, would have to flow on for half a century to equal the results of the monstrous eruption or series of eruptions.—Dr. Felix L. Oswald.

The carelessness of the traveling public was illustrated by a sale in New York of unclaimed articles left on the railroad road last year. There were 3,000 lots in all, comprising umbrellas, purses, pocketbooks, parcels of dry goods, and an indefinite variety of other articles.—Chicago Times.

About sixty of the court suits worn at the queen's last horse were hired for the day.

A Question

Often asked, but seldom answered satisfactorily: "Is there a remedy known to the medical profession that will allay the sufferings peculiar to women who are subject to Dysmenorrhea and its attendant discomforts?"

Ladies
If you have not tried it, do so AT ONCE. There is relief for you; it has been found in

Tongaline

Read what an eminent physician has to say upon

"I have derived particularly gratifying results from the use of Tongaline in the case of a lady of rheumatic condition, and a chronic sufferer from this disease, who had been driven almost to the verge of insanity by her monthly sufferings. Its action has been most satisfactory. It relieved her promptly, and she now passes the once dreaded periods with but little discomfort. I could mention other instances of a similar character, but this is a remarkable one."—T. F. FRAZER, M. D.

Our former fellow-citizen, John A. Green, is now bicycle editor of the Cincinnati Commercial Gazette. He passed through Paris one day this week on his bicycle, for Mammoth Cave by way of Harrodsburg.

An elegant German will be given at Ecupia Springs to-morrow (Friday) evening. Every arrangement has been made for the comfort and pleasure of the guests, and a delightful time can be safely counted on.

A LADY writes: "I have used Ayer's Sarsaparilla in my family for many years, and could not keep house without it. For the relief of the pains consequent upon female weakness and irregularities, I consider it without an equal."

MAYVILLE will come to the front! We dropped into the shoe-shop of Thomas Kewin on Market yesterday and saw him take the measure for a pair of fine boots for a gentleman from Illinois, who said he could not do without a Mayville boot.

Have been a sufferer from malarial malaria for eight years, and have tried nearly everything without any marked relief, until I tried Tongaline, and I can conscientiously say it has proved in my case a perfect success.—Fred C. Lynch, M. D., Mt. Pleasant, S. C.

The merchants of this city have been kept busy this week handling the grain and tobacco which is being delivered every day. The price of tobacco—good grades—is reported firmer at Louisville. There has not been any material advance in the price of wheat in the past week.

Not a particle of calomel or any other deleterious substance enters into the composition of Ayer's Cathartic Pills. On the contrary, they prove of special service to those who have used calomel and other mineral poisons as medicines, and feel their injuries effects. In such cases Ayer's Pills are invaluable.

This heavy fog for the past two or three mornings has thrown most of the packets away out of time. The Telegraph passed down at noon yesterday, nearly twelve hours late, and the St. Lawrence did not arrive until about 3 o'clock last evening. The latter steamer left on return trip as soon as she could handle her freight.

LOUIS GORDON died at his residence last night after a protracted illness. He was sixty-three years of age. He came to Mayville in 1842, and has been a resident of this city ever since. At one time in his life he was engaged in the grocery business. He was a good citizen, quiet and industrious, and enjoyed the respect of his neighbors.

Ruggles Camp Meeting.

Nothing but the most favorable weather can prevent this being one of the most successful meetings in the history of the association. The demand for cottages can not be met by the board, and five new ones will be built this year. Upon every side, we hear of "wagon loads" made up for Sundays and special days, and inquiry at the lively stables yesterday developed the fact they had hired everything they could get for Sunday, August 8th, all of which points to a very large attendance. The future of this popular camp meeting is exceedingly bright, and each year adds to the assurance of its becoming one of the most influential in the State. We understand the board are contemplating quite extensive improvements before another year, including alterations and new roof on the tabernacle, addition to hotel, new cottages, &c.

The "Female Battery," which played base ball with the boys here Saturday, was a snide affair. They couldn't play a little bit. The girls were dressed in high-water dresses and striped stockings. They played so disgustingly bad that the umpire and crowd all left at the fifth inning, and the boys came near throwing the Sheeny manager in the creek.—Bourbon News.

WILLIAM H. BLAINE, of this city, was married to Miss Fannie M. White at Cincinnati, Tuesday evening. The bride is the youngest daughter of Rev. J. C. White, a Presbyterian minister of that city. A. R. MULLEN, Esq., of Covington, President of the Ecupia Springs Company, was here this morning on business. He reports about one hundred guests at that popular resort, and the attendance is increasing every day. The Springs are under new management this season, and are becoming more popular every year.

CITY MARSHAL HEPLIN and his deputies have been active and persevering in ferreting out the negroes charged with riotous conduct near the depot Saturday night. About twenty have been arrested and their trial was begun this morning before Mayor Pearce.
